B. Governing Board Policy Manual:

The District's Policy Manual contains the policies of the Governing Board along with administrative regulations and exhibits of the Superintendent. These documents form the basis of the governance of the District.

For access, the Policy Manual is housed in an electronic format. Each District employee is charged to comply with direction established in the Manual, and, with keeping up-to-date as new and adjusted policies, regulations, and exhibits are determined appropriate by the Governing Board and Superintendent. A breach in adherence to policy could result in disciplinary action up to and including termination. Your immediate supervisor will keep you informed of significant adjustments to the Manual, and is the person you should go to when you have questions regarding any aspect of the documents found in the Manual.

Should inconsistencies occur in the interpretation of policies, regulations, or exhibits, applicable laws and regulations shall prevail.

For information regarding the content of the District's Policy Manual and its utilization, employees should review the Manual's Introduction.

Section 3: Aspects of Employment

A. Personnel Policies:

1. Personnel policies adopted by the Governing Board are to serve as the framework for the efficient and successful functioning of the District. Policies are framed and intended to be interpreted within the context of applicable laws and rules that govern public schools. Changes in the laws and agency rules, as well as in the needs, conditions, purposes, and objectives of the District may result in revisions, deletions, and additions to the Manual. Therefore, to the extent permitted or required by law, District personnel policies may be modified, amended, or repealed at any time as the Board determines to be in the best interest of the District.

Employees do not have a vested right to continuing employment or benefits associated with District employment except as may be required by law and provided in the respective employee's written contract or employment agreement.

B. Assignment and Transfers:

1. *Support Staff* - All support staff assignments shall be based on the needs of the District, on the individual's qualifications, and on their expressed desires. When it is not possible to meet all three (3) conditions, an employee shall be assigned first in accordance with the needs of the District, second where the Superintendent determines the employee is most qualified to serve, and third as to the expressed preference of the employee.

Support Staff Transfers: The transfer of support staff members will be based on the needs of the District. However, staff members may apply for transfer whether or not a current vacancy in the District exists.

The resolution of any conflicts over the need for a transfer shall be based on what is best for the District's instructional program, the needs of the students, and the overall needs of the District as defined by the Superintendent.

The above applies to transfers within the same job classification and pay grade. The assignment of an employee to a position of greater or lesser pay requires the recommendation of the Superintendent followed by Board approval.

Reference: Governing Board Policy GDJ

2. *Professional Staff* - The Superintendent has the responsibility of assignment and transfer of all professional staff in the District. The procedure for assignment and transfer of professional staff members will be based on the needs of the District's instructional program. No right to an assignment in a specific department, position, school, grade, or teaching assignment shall be inferred from the professional staff member's contract.

Professional staff members may apply for transfer whether or not a vacancy exists. However, transfers will not be approved by the Superintendent during the school year unless the needs of the District dictate such approval.

In the case of vacancies in new or existing positions, first consideration will be given to qualified applicants among current employees.

The transfer of teachers from one school to another school within the District shall take into consideration the needs of the pupils in the District and the current distribution of teachers across all of the four (4) performance classifications as adopted by the State Board of Education and noted in Arizona Revised Statute 15-203(38).

A teacher who has been employed by the District for the major portion of three (3) or more consecutive school years and who is currently designated in the lowest performance classification, as adopted by the State Board of Education and noted in Arizona Revised 15-203(38), for two (2) consecutive school years shall not be transferred as a teacher to another school in the District unless the District has issued a preliminary notice of inadequacy of classroom performance and approved a performance improvement plan for the teacher and the Governing Board has approved the new placement as in the best interests of the pupils in the school. Following a transfer under this provision, a teacher who continues to be designated in one (1) of the two (2) lowest performance classifications shall not be permitted to transfer to another school.

The resolution of any conflicts over the need for a transfer shall be based on what is best for the instructional program, the needs of the students, and the overall needs of the District as defined by the Superintendent.

E. Special Instructional Programs: The District has developed procedures that provide educational opportunities for individuals with disabilities and that accomplish District compliance with federal laws including the Individuals with Disabilities Education Act (IDEA), the Arizona revised statutes, and the lawful regulations of the State Board of Education. Administrative Regulation IHB-R establishes detailed direction regarding the identification and placement of qualifying exceptional students as defined by federal and state regulations, rules and statutes. Staff members who work with qualifying students will receive specific direction related to individual education plans designed to meet a student's needs and will likely take part in decision making meetings related to student achievement and development of a student's individual education plan.

- F. Student 504 Plans: It is the responsibility of the District to identify and evaluate students who, within the intent of Section 504 of the Rehabilitation Act of 1973, need special services or programs in order that such students may receive the required free appropriate education.

A student who may need special services or programs within the intent of Section 504 is one who: has a physical or mental impairment that substantially limits one or more major life activities, including learning, has a record of such impairment; or is regarded as having such impairment.

Students may be eligible for services under the provisions of Section 504 even though they do not require services pursuant to the Individuals with Disabilities in Education Act (IDEA). Students who are identified as individuals with exceptional needs, according to IDEA criteria, are not addressed under 504 plans.

Staff members who work with qualifying students will receive specific direction related to the student's 504 plan and may be involved in decision making meetings related to the plan.

- I. Student Conduct, Rules and Discipline: The District has prescribed rules for the behavior, discipline, suspension, and expulsion of students that are consistent with

their constitutional rights. Prescribed rules are established to protect the school environment for students and staff. District rules of behavior address but are not limited to the following items:

1. Any conduct intended to obstruct, disrupt, or interfere with teaching, research, service, administrative or disciplinary functions, or any activity sponsored or approved by the Board.
2. Threatening an educational institution by interference with or disruption of the school per A.R.S. 13-2911 and 15-841.
3. Physical abuse of or threat of harm to any person on District owned or controlled property or at District sponsored or supervised functions.

5. Forceful or unauthorized entry to or occupation of District facilities, including both buildings and grounds.
6. Unlawful use, possession, distribution, or sale of tobacco, alcohol, or drugs or other illegal contraband on District property or at school-sponsored functions.
7. Conduct or speech that violates commonly accepted standards of the District and that, under the circumstances, has no redeeming social value.
8. Failure to comply with the lawful directions of District officials or any other law enforcement officers acting in performance of their duties, and failure to identify themselves to such officials or officers when lawfully requested to do so.
9. Knowingly committing a violation of District rules and regulations. Proof that an alleged violator has a reasonable opportunity to become aware of such rules and regulations shall be sufficient proof that the violation was done knowingly.
10. Engaging in any conduct constituting a breach of any federal, state, or city law or duly adopted policy of the Board.
11. Carrying or possessing a weapon on school grounds.

Rules of behavior along with the appropriate and consistent application of responses to inappropriate behavior assist in the effort to maintain a classroom and school environment that is supportive of student growth and achievement. All staff members are charged with understanding the rules that apply to student behavior and the implementation of appropriate interventions when necessary. Instructional staff have a particularly important role in this effort and need to be knowledgeable of behavior techniques that enhance the application of student rules of behavior.
